**Summary of the Students' Evaluation of Educational Quality (SEEQ)**

<b>Level:</b>	Undergraduate	
<b>Course:</b>	MATH1207R2A	CALCULUS II
<b>Department:</b>	Mathematics	
<b>Instructor:</b>	SMITH A	

Semester: Spring 2012  
 No. Students: 20

The shaded area represents the range of ratings for the middle 50% of the student responses for this course and section. The thick hollow line represents the median rating. The bottom 25% and the top 25% of all student responses are represented by horizontal lines on either side of the shaded area. Thus, all student responses are represented for each of the rating scales.

The results in this summary represent the average (Mean) and standard deviation (StDev) of the ratings of students for the course indicated above. The item descriptions have been paraphrased. Please see the SEEQ instrument for the actual wording. NOTE: The standard deviation tells how the data is distributed (spread out) with respect to the average. In other words, the smaller the StDev, the closer your score is to the average or mean value of the student responses.
